Dear Omni Hiring Manager,

I'm writing in regards to your open Customer Service Associate position.

I believe I'll be an excellent fit for this position as I will bring a strong base of software literacy and front-line, customer service experience to the job, as detailed in my resume. I'm strong interpersonally, so I will be capable of advocating for customers as well as providing a bridge of communication between them and technical/senior business members. The prospect of working at a SaaS company is extremely exciting, especially one so conceptually daring. I'm a total fanatic for technology and will bring my enthusiasm to my job process and interactions. Thank you for your time.
